Discover a non-academic career that will allow you to take full advantage of your engineering, scientific, and analytical background. [Exponent](#) is an engineering and scientific consulting firm with job opportunities for graduate students. Our consultants are expected to quickly answer clients' questions such as "How?," "Why?," and "What went wrong?" Working at Exponent gives you the chance to answer these questions on high-profile projects while working alongside hundreds of bright, like-minded engineers and scientists from around the world. This talk will present actual cases in failure analysis and accident investigation and describe the role of the consulting engineer and scientist.
